Professional Summary

Software Engineer | UI/UX Developer | Product Designer | Founder & Startup Builder | Musician & Actor

Creative technologist with 10+ years of combined experience across software development, UI/UX design, graphic arts, and performance. Recently founded two innovative apps — Farad (a logistics and truck-hailing platform for Africa) and Radar (a fintech app enabling USD savings and loans in Nigeria). Skilled at designing in Figma and transforming prototypes into functional apps using Flutter and Firebase. A resilient self-starter with a passion for building products that solve real-world problems.

Skills

- UI/UX Design (Figma, Adobe XD, Prototyping, Wireframing)
 - Mobile & Web Development (Flutter, Firebase, HTML, CSS, JavaScript)
 - Product Design & Startup Building
 - Graphic Design (CorelDRAW, Photoshop, Illustrator)
 - Strong Communication & Leadership
 - Agile & Remote Collaboration
-

Work Experience

Founder & CEO – Farad App

2025 – Present

- Built a logistics and truck-hailing app from scratch using Figma (UI/UX), Flutter (frontend), and Firebase (backend).
- Designed and implemented authentication, truck selection features, and scalable architecture for pan-African logistics.
- Pioneered the idea of simplifying logistics with a mobile-first platform tailored for Africa and beyond.

Founder & CTO – Radar App

2025 – Present

- Developed a fintech solution enabling users to save and loan in USD while in Nigeria.
- Focused on secure payment flows, modern UI design, and backend integrations.
- Combined UX research with technical leadership to create an app that stands out in the African fintech space.

UI/UX Engineer – Tann Mann Gaadi (Internship)

2024

- Designed and improved user interfaces for a non-profit tech initiative.
- Collaborated with developers to align design systems with engineering needs.

Freelance UI/UX Designer & Developer

2018 – 2023

- Delivered UI/UX projects for clients worldwide through platforms like Upwork, Behance, and Dribbble.
- I specialize in creating mobile-first user interfaces and responsive designs.

UI/UX Designer – RCCG

2024

- Designed the church's website that time
- Learn new methods of designing

Musician (Drummer) -HPPC

2000

- Drummed for my church but it was unpaid
- Grew in Leadership

Graphic Designer – Awemak

2017

- Did a lot of graphics work
- Learnt how to use CorelDRAW and photoshop

Internet Manager – Hope hope Golden

2022

- Played a lot of students fees then
- Grew in customer communication

Content Creator – Meta

2024

- Learning new things
- Had lots of comments and views on a post

Education

University of the People – Bachelor of Science, Computer Science (*In Progress*)
Redeemer's University – Previous Studies (Transferred)

Achievements & Certifications

- Google UX Design Certificate – Google
- Graphic Design Specialization-CALARTS
- Data Engineering Specialization – IBM
- UoPeople Ambassador & Campus Engagement Badges
- 10k Ambassador Badge – UoPeople
- UI/UX Design Specialization-CALARTS
- C++ Programming Professional Certificate -Open EDG C++ Institute
- Html, CSS and JavaScript: Building the web-LinkedIn Learning
- Sketch Essential Training: The Basics-LinkedIn Learning
- Artificial IntelligenceFoundations: Machine Learning-LinkedIn Learning
- Python Essentials 1-Cisco
- Sustainability Badge-University of the People
- Orientation Completed-University of the People
- Introduction to Artificial Intelligence-LinkedIn Learning
- Cert Prep: Adobe Certified Associate: Photoshop
- After Effects CC 2021 Essential Training: Motion Graphics

- **Create a website Using WordPress: Free Hosting and Domain_ Coursera**
- **EF SET English Certificate 50/100 (B1 Intermediate) - EF SET**
- **Developing innovative ideas for Product Leaders – University Of Maryland**
- **Programming**
- **Programming Foundations : Fundamentals – LinkedIn Learning**
- **Webinar: Leveraging Digital Collaboration and Communication Tools for Career Advancement in Business – United Latino Student Association**
- **Critical Thinking for Software Engineers: Practical Approach to Complex Software Engineering Challenges – LinkedIn**
- **Webinar: Building Diverse and Effective Teams for Success in Business Careers – United Latino Student Association**
- **Microsoft Mesh and New Meeting Features in Microsoft Teams – LinkedIn**
- **How to think Big – LinkedIn**
- **Webinar: - Leveraging AI for Career Growth and Skill Enhancement in Business and Healthcare Fields - United Latino Student Association**
- **Ten Habits of Mentally Strong People – LinkedIn**
- **Essential Spanish in Two Hours with Paul Noble – LinkedIn**
- **Essential Mandarin in Two Hours with Paul Noble – LinkedIn**
- **Essential French in Two Hours with Paul Noble – LinkedIn**
- **Arabic for Absolute beginners – LinkedIn**
- **Travel Agency Management -ICATS**
- **Air Ticketing - ICATS**

Interests

- **Building Startups**
- **Music (Drumming & Performance)**
- **Acting & Storytelling**
- **Emerging Tech (AI, Robotics, Fintech)**
